Twin Timber

R/C Hobbies	vista@rc-hobbies.com	760-295-9256	Date : 07/17/2023
Info	<p>The E-flite® Twin Timber 1.6m is not "just another Timber" – it offers the same easy handling and STOL capabilities Timber models are known for, along with additional benefits, performance, and unique abilities due to its twin power setup! Not just another Timber; it's the most capable, durable, stable, and unique Timber model yet. A great first-ever twin-powered, everyday sport and STOL-capable model for a wide range of pilots. 40-amp Spektrum™ Avian™ Dual Smart Lite ESC provides real-time battery voltage, temps, and other data via compatible receivers and transmitters. High-power 3S and 4S compatible outrunner motors with counter-rotating 3-blade props. Spektrum AR637TA receiver with full-range telemetry and industry-leading DSMX® technology.</p>
