Parents please pass this copy of the Transmitter on to your Junior Member (s) as you see fit.

Meeting Minutes

General Meeting Sept 15th

President George Dawe opened the meeting at 7:30 and covered new business. First up was an error on the Christmas Dinner menu by the club Food and Beverage Director. The menu should have read roast beef and turkey, not roast beef and ham. Ticket prices are \$20.00 for adults and \$5.00 for under 18 members. Tickets are available at the meetings, or by mail from David Truax, 1312 Shadow Hill drive, San Marcos 92069. Make your check out to Palomar RC Flyers. The senior center will allow up to 250 people in our room at table seating. We may be limited at less than that to allow room for tables for the raffle prizes etc. Seating will definitely be limited.

Harvey reported that the club treasury should scrape through until the end of the year so we can start the new year with no debt and all the membership renewal money to look for a new field and to develop it.

Gary Thompson reported on the success of the RC car track off road series. Gary is still recruiting helpers to run the car track to earn Palomar dollars.

Thumb of the month taught

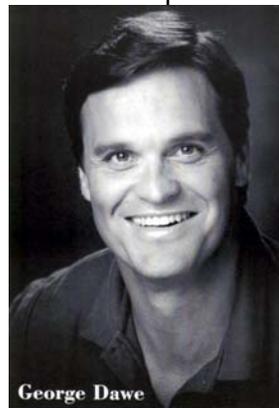

(CONTINUED ON PAGE 4)

President's Column

October 2005 President's Column

Its October! What does that mean to the Palomar R/C Flyers? Well, first it is a slow month. However we do have an informal Control Line fly-in scheduled for Saturday, October 8, 2005. We also have an Open B Combat event, (Raid on Bougainville), scheduled for October 22, 2005. But the most important event scheduled for this month is the October 20, 2005 Club meeting! Why you might ask? Because the October meeting is primarily reserved for Club Officer and Board of Director nominations for the upcoming election.

By now you should have in mind people you would like to nominate to help insure that our club continues to prosper. I personally have several people in mind to fill the shoes of retiring Board Members and Officers. Oh sure, many of these people have told me "if nominated I will not run, if elected I will not serve" but I am going to nominate a couple of them anyway and just see what happens! You never know who will step up to the plate when duty is thrust upon them! We shall see.

George Dawe

In this issue you will find our projected initial budget for next year, 2006. This budget is only meant to give the membership an idea of how the finances might look, given conservative renewal figures and expenditures. It is by no means intended to hog-tie the next administration's spending. That said I would recommend that the next administration continue the "new field" search. In doing so, the new board and new officers should plan to spend the cash surplus wisely-only on a new field! Yes, we still have Johnson Field, thanks much to the efforts of Tom Minegar. Yes, Johnson Field and Car Track could still use some improvements. But we have promised the County of San Diego to refrain from doing any such improvements in exchange for an exemption from a use permit. (At this time that agreement still remains in effect!)

I would like to take the time to thank all those that worked and participated in the Club's September 2005 Airshow and Swap Meet! It was a big success! I would particularly like to thank Bob Lang for doing the announcing, Gary Thompson for doing the organizing and Curtis Kitteringham for arranging the food and organizing the swap meet. It was a wonderful time had by all who attended and we saw some great flying. As always, we use this show to attract new members, and we had several join on the spot! Again my congratulations to all!

On a different subject, our final big yearly event, the club day (2)

(CONTINUED FROM PAGE 1)

Christmas/Kwanzaa/Hanukkah/(insert your own politically correct holiday name here) dinner is scheduled for December 17, 2005. As a reminder, **There will be no regularly scheduled club meeting on December 15, 2005!** Instead we will have our Holiday/Christmas/Kwanzaa/Hanukkah/(insert your own politically correct holiday name here) Banquet. Ticket are available at \$20.00 per person from David Truax (760)747-3485. I hope to see you all there! The main menu includes Turkey, Roast Beef and all the trimmings! To be eligible for the final raffle drawing you must attend this banquet or have a friend attending the banquet claim your prize for you!

That is all I have for this month!

Your President,

George Dawe

EDITORS APPEAL

I Enjoy putting this newsletter together. Composing, formatting and printing is a lot of fun. It takes a lot of time but it's my contribution to the club and I realize that a lot of members donate a lot of their time to keeping this club alive. However there is one facet of the newsletter that is mind numbingly boring, time consuming and aggravating as any past editor will attest to. That is the folding, tabbing, addressing, and stamping of the finished product. It takes about three hours for one person to do it. Soooooooo, I would like to appeal to just three members that live in the Poway area to join me once a month at our shop to help do this not so pleasant task. It will take about one hour or less and with the conversation and discussion that ensues that goes by in a flash. I'll provide soft drinks (or beer) and a friendly atmosphere. If anyone out there is able and willing please E-mail me at

seanoc57@pacbell.net

or call

858-486-6771

Pylon Notes

By Dave Truax

The Schedule for pylon races for next year has not yet been finalized.

However the last race for this year at **our field** will be on

November 19th.

We will be running three classes, which are:

Quicke 500

Sportsman

Combat Open B

First Weedwackers will be running three classes also, but there is a difference to be worked out with them for compatibility. They are:

Quicke 500

Sportsman

1/12 scale warbirds (House of Balsa T6's)

We are hoping that our Combat 2610 class can be made to be compatible with their 1/12 scale warbird class to enhance competition. This will be the subject of some discussion and negotiation.

First Weedwacker's schedule for the rest of this year is:

October 29th

December 17th

Any questions or discussion call Dave

Truax

IMPORTANT NOTICE

As noted elsewhere in this newsletter, the **DECEMBER** meeting will be held in conjunction with the annual Banquet on Saturday 17th DEC.

So don't show up on

Thursday 15th

You'll be all alone!!

See page 4 for more details.

PALOMAR FLYERS AIR SHOW
September 17th

**MEETING MINUTES
(CONTINUED FROM PAGE 1)**

us not to leave a charged NiMh battery in our pocket with our spare change while launching our planes. The resulting reaction distracted the pilot enough to lose his plane in the only tree on the 20 acre flying site.

Charles Lewis brought in some items a month early for October's club auction and won Model of the Month because no one else entered a model.

Meeting was adjourned at 9:30

Board Meeting Sept. 28th

Attendees: George Dawe, Harvey Atkinson, Dave Truax, Glen Pohly, Tom Minegar, David Drowns, Gary Thompson, Butch Abongan, Roger Corley

Called to order 7:00 p.m.

George gave us a rundown of the proposed budget for 2006. Based on memberships for 2005 it is reasonable to expect the following numbers:

Income ----- \$30700.00
Expenditures ----- \$ 11600.00
Surplus of ----- \$19100.00

All debts are almost paid off so we should start 2006 in good shape.

George proposed that we hold several hundred dollars in reserve to pay the future water bill, which so far has not been claimed by any water district, but no doubt, will pop up soon.

The surplus funds should be earmarked for field development either at the present field or some future one that we may have to acquire.

George has been informed that there is a possibility that the property north of our field may become the site of Cal State Fallbrook. The decision will supposedly be made on November 3rd. That date will be pivotal to the future of our club.

The Holiday Banquet is scheduled, as mentioned before, for December 17th at our present meeting place and will be held instead of our usual December meeting on the 15th. So for those of you who don't already know: NO MEETING IN DECEMBER

Tickets for the Holiday Banquet can be obtained at the October and November meeting, or from:

Dave Truax
1312 Shadow Hill Dr.
San Marcos, CA 92069

Or call him at **760-747-3485**

Prices are \$20.00 per adult and \$5.00 for under 18

Make checks out to Palomar RC Flyers. Space is limited so reserve early.

MENU

**Palomar Flyers
Holiday Banquet**

Sat. Dec 17th 2005

Carving Station – Roast Beef and Turkey

- *Gravy and Au Jus*
- *Garlic Mashed Potatoes*
- *Green bean and Cranberry Side Dish*
- *Salad and assorted dressings*
- *Assorted deserts*
- *Coffee and Soft Drinks*

Seating will be limited

Tickets available at the meeting or by mail from:-

OCTOBER	2,16,
NOVEMBER	6,20,
DECEMBER	4,18

**2005 OFF-ROAD
Championship Series**

The Championship Series was concluded on Sunday, October 2, with the 8th and final race of the series.

There were 99 competitors that participated in the Series which consisted of 3 classes:

1/8 Scale Buggy - sponsored by **HobbyTown San Marcos**

Nitro Truck - sponsored by **Discount Hobby Warehouse in Kearny Mesa**

E-Truck sponsored by **Hobby Central in Poway**

The racing was very close in all 8 races and came down to being decided in Sunday's final which was a double points race.

In the E-Truck class Aaron Jensen was the points leader coming into the race and managed to hold on to his lead by a single point to beat out Ray Ramirez, who screamed through the electric class becoming Top Qualifier and then won the A-Main to come within a point of the points leader. Jules Martin of Hobby Central was there to hand out prizes to the winners of the electric class. Here are the Series winners:

1st - 87 pts - Aaron Jensen

2nd - 86 pts - Ray Ramirez

3rd - 80 pts - Dan Ward

4th - 70 pts - Aaron Corona do

5th - 58 pts - Eric Winter

In the Nitro Truck class it was Dan Ward all the way. Dan had built up a commanding points lead having competed in all 8 races and garnered several 1st place finishes. Dan finished 2nd in the A-Main to keep his points lead intact. Chris Raceles tried his best and took Top Qualifier and finished 1st in the A-Main, but didn't manage enough points to catch Dan. The top 3 received prizes from John Weaver, Discount Hobbies. Here is the Nitro Truck Series winners:

1st - 73 pts - Dan Ward

2nd - 70 pts - Chris Raceles

3rd - 48 pts - Rich Yelkin

4th - 41 pts - Baldy

5th - 35 pts - Travis Hughes

The 1/8 Scale A-Main on Sunday was a 20 minute race with the Championship up for grabs. Kris Moore turned 4 laps in a row under 30 secs to take a lead and went on to finish 1st in the A-Main. James McDonald turned in a brilliant performance to finish 2nd and collect 34 points and an extra attendance point, which was enough to secure 1st place in the Series Championship. Close behind was Pat Lowrie, who had worked his way up from 2nd in the B-Main to start last in the A-Main and then finish 7th to just stay ahead of Paul Self, who had the points lead coming into the last race. Here are the 1/8 scale buggy winners with prizes being handed out by Bill Woodfine from HobbyTown San Marcos:

1st - 121 pts - James McDonald

2nd - 119 pts - Pat Lowrie

3rd - 115 pts - Paul Self

4th - 96 pts - Tim Dunn

5th - 96 pts - Jose Newman

(Tie break by best points in a race)

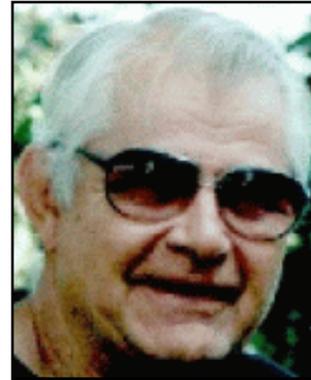

PRIZES AWARDED

E-Stock (Hobby Central Class) - 1st-Losi Matt Francis II car kit, 2nd-JR XR3 radio, 3rd-Dynamite 3600 pack

Nitro Truck (Discount Hobby Class) - 1st-Spektrum Radio, 2nd-Spektrum receiver/module, 3rd-JR 9000 hi-torque servo

1/8 Scale (HobbyTown Class) - 1st-OFNA Monster Blazer SST RTR, 2nd-Spektrum DSM, 3rd-OFNA .21 Picco engine, 4th/5th-gift cert.

Thanks to all the competitors in the Series for creating some exciting races and please show your appreciation to our sponsors who helped make this racing series a success. Complete details of the races are on the website at www.PalomarRaceway.com along with some pictures of the competitors.

Gary Thompson - your track Coordinator.

Scale Notes

By Ron Peterka

GETTING AND KEEPING A SHINY PLASTIC CANOPY

Ron Peterka

It seems like inevitability to see small scratches show up on your favorite model clear plastic canopy. It just happens! But, there is a way to prevent a lot of those scratches and have a sparkling and shiny canopy.

The answer is S.C.Johnson Wax 'Future' clear acrylic polish sold in the floor polishing section at the super market. Other acrylic floor products may work as well, but Future is proven.

Future is a clear, watery thin, liquid acrylic that is designed to add 'shine' to synthetic floor-coverings that can't be waxed and buffed like older floor coverings like linoleum. When spread on the floor covering in a thin coat, the liquid sets up in a very short time and retains its shine even in areas subject to heavy foot traffic. So how does this fit in our models?

Well, Future can be applied by air brush or dipping. It can be brushed, but can be a little difficult to get a smooth thin coat. It can be thinned with a little denatured alcohol, but be prepared to wait a little longer for it to harden.

Clear plastic parts like canopies should be thoroughly washed with Windex or a water/ammonia mixture. When dry, you airbrush the canopy inside and out with Future. Clamp the part at a corner, or onto a scrap area that will be cut off later and hang it to set up. If you dip the part, let surplus liquid drain and place the canopy on paper towels to dry.

The reason for covering inside and out is that the Future will protect the inside of the canopy from the ugly marking that you can get when you attach the canopy with cyanoacrylate (AC) glue. And the

canopy should appear much 'clearer' than without the coating.

The Future will self-level as it sets and should give a great shine that can be repaired if it gets small scratches. In that case you will remove the Future using Windex or ammonia/water mix and reapply the Future.

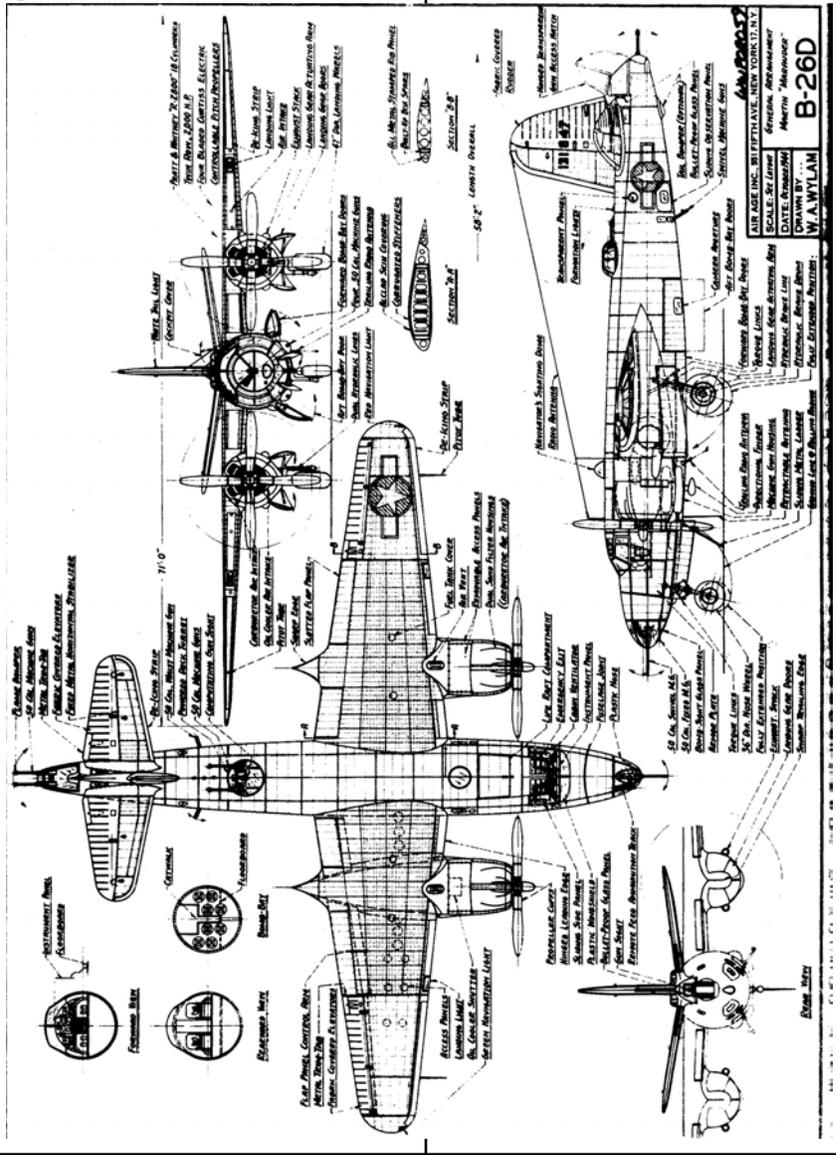

Your canopy frame can be painted onto the canopy over the Future. Use a low tack vinyl masking tape to minimize a adhesive transfer to the canopy surface.

This process should be exceptional with electric powered models where there is no nitro/methanol/oil mix to be concerned about. I haven't tried it on latex paint, but it might be compatible for a nice shine

on that normally dull surface. Test first. Don't try any new process on a model that represents a lot of time, energy, and money.

This liquid acrylic material is one more useful tool for our esoteric hobby. Try it.

Below is a B-26 Marauder for your consideration for a scale project. This image was scanned from "Scale Aircraft Drawings", a publication of Model Airplane News

Model of the Month

Model of the month was stumbled into this month by Charles Lewis who got his dates for the club auction crossed and showed up with several planes for sale. Since there weren't any other entries present for this month Charles was encouraged to enter a model which then was voted "Model of the month", unanimously, I might add. Someone commented that this was the only way he could win anyway. Just kidding Charles!!! Display that trophy proudly.

No camera was present to record the moment unfortunately.

NO-FLY QUICK CHECK

ASSEMBLY INSPECTION

- Check Security - Engine, fuel tank, wheels, receiver, battery, servos.
- Pull Test - Linkages and control surfaces.
- Receiver Antenna - Fully extended and away from metal.
- Verify Center of gravity location.
- Conduct Range Test- with transmitter antenna collapsed.

PRE-FLIGHT(EACH FLIGHT)

- Check receiver voltage under load.
- Check transmitter power level.
- Check engine high speed, nose up.
- Check engine idle, nose down.
- Extend transmitter antenna.
- Check control surface direction and response.

Other Clubs

Hi,

I'm Dick Knapp, Sec./Treas. of the **Coachella Valley RC Club**. We currently have 105 members and run two events every month. We have a web site, which is being updated, at www.cvrclub.com where you can access a map to our flying field. The events that we have on schedule for the remainder of this year are:

Sunday, Oct 2

Pylon race for Sonic 500 aircraft

Sunday, Oct 23

Unlimited Combat

Sat.-Sun. Oct. 29-30

Scale Fun Fly including night flying on the 29th

Sunday, Nov 6.

CVRC Club Demo flights & Trainer class pylon racing.

Sat.-Sun. Nov. 12-13

3rd Annual Toys for Tots Fun Fly

All of these events are open to any AMA member (with license in hand). Entry fees are typically \$5 -\$10. Further info: call me at (760) 836-3848.

I would also appreciate receiving information on your events so our members can visit your field.

Other RC Events

By Johnny Pumphandle

Pylon Racing

Is making a comeback

1st Weedwacker Aero squadron in Lakeside has 2 Pylon events scheduled this year.

3 Classes to choose from:

- 1/12 Scale War birds, AT-6, etc..25 BB engines, 8x6 prop, 16,000rpm Limit.
- Sport Quickie, AMA 424, .40 engines, 9x6 prop, 16,000rpm limit
- Sportsman, flat bottom high wing ARF Trainer, .40 engine, 10x6 prop, 13,000rpm limit
