\$239.99

Bind-N-Fly® Basic Version

Already own a Spektrum® transmitter? Bind-N-Fly® (BNF) aircraft make getting into the air quickly and with the best control experience possible easier than ever. They come out of the box with the servo, power system and a Spektrum 2.4GHz receiver installed, so all you need to do is bind the receiver to a compatible transmitter, finish any final assembly and fly!

Plug-N-Play® Version

Plug-N-Play® (PNP) aircraft come out of the box with a factory-installed power system and servos that are ready to connect to the compatible receiver of your choice. Simply install the receiver, finish any final assembly and fly!
